

Non-Moving Inventory

As 2014 rapidly moves into fourth quarter, we remind you to look at your inventory lists for materials you no longer want or need. We will help you move those unwanted resins and composites; including engineering resin regrinds. Such inventory purging will free up valuable warehouse space and improve your financial bottom line. Raw materials are over 58% of the cost of conducting business, make sure you keep your inventory levels are at practical and usable levels.

The Resin Enterprise, Inc. is a unique distributor of engineering resins specializing in custom compounded engineering resins. We also supply unfilled prime engineering base resins in original manufacturing packages as well as generic prime resins. Our available technology includes unfilled and glass filled products in Nylon, PBT, and PC; TPEs and ABS; High Temperature materials including Polysulfone and PEI; flame retardant materials, PTFE filled compounds particularly in Acetal (Co-Polymer and Homopolymer), closed loop recycling of regrind and non-moving inventory, melt flow aids, HS concentrates, filtration, custom coloring, and moly concentrates. We welcome the opportunity to demonstrate the savings we can provide for your organization.
